1. Intro

Topaz was on his dragon, Diamond, who's scales were white in the sunlight, but, under the light of a full moon they burnt a fiery orange, when suddenly the female dragon's eyes narrowed to slits and she began sniffing the air quite rapidly. "Not again..." he mumbled to himself, for he knew that Diamond wanted only one thing, and that was a mate. Suddenly Topaz saw a black dragon in front of him. "Come on, Diamond, let's see if we can get whoever that is to land and see if he can tell us what kind of dragon you are," he said right as diamond rose up and then dove, reaching subsonic speeds to catch the black dragon that she was furiously pursuing. "Hey, can you help me?" he yelled to the boy that was on the black dragon. He nodded a simple yes. A few minutes later...

"What do you need help with?" he kindly asked. "I have a dragon, a female to be exact, but I dont know what type of dragon she is," Topaz said with a slight nervousness to his tone. "Oh what's your name again mine is Topaz"

>"The name's Hiccup, and can i see your dragon please?"
"Sure,"

>"Wo- Toothless stop that! Your embarrassing me-again" as his dragon circled Diamond, who had a calculating look in her icy blue eyes. "Now, what are the traits of your dragon?"
"Let me see.. Oh yes, she has retractable teeth(okay) she hunts fish(yes) and when she dives, her wings start to vibrate...oh I nearly forgot, She also hates eels (wow)"

>"I thi- WHAT THE FUCK ARE YOU DOING TOOTHLESS?" as Hiccup's dragon attempted to mount Diamond "Well, Diamond DID want a mate," Topaz

chuckled.
"Well, I think we now know what kind of dragon she is."

>"What?"
"A nightfury(that's somehow white)... wow I never knew Toothless had a d*ck(I thought they were like birds)"

>Hiccup ran to tell Astrid of what he had just saw and heard. When he got there he was panting and tried-but failed- to explain what he just saw.
"Whoa there Hiccup,slow down man"

>"I think Toothless has found a mate" he gasped.
"Wait-what?" Astrid was dumbfounded at what she just heard.

2. The truth sort of

"Wow! are you serious?" Astrid commented

>"Yes, I'd say so,"Hiccup replied as he saw Topaz passing them."Hey, Topaz! How DID you know Diamond was a female?"
Topaz's expression darkened,"She tried to rape me."

>"What the fuck?" Astrid and Hiccup said together.
Right then Diamond started to take off into the clouds, alone.

>"Oh god not again!" Topaz moaned, secretly wishing he didn't have such a strange dragoness<p>

3. The Real truth

Sorry that Last chapter was so short

"I think I should probably tell you what else Diamond can do, right?" Topaz inquired "What else can she do aside from what you have told me?" Hiccup replied "Well... I overlooked this earlier due to the fact that where I come from it is a very rare gift" Topaz whispered "What is it?" Hiccup wandered "She can shapeshift into a machine." Topaz said "Huh? Did you really just say your dragon can change into a machine?"Hiccup was shocked Topaz nodded.

>"And judging by the altitude she's gaining right now she'll probably change into an SR-71 Blackbird" Topaz shuddered as he said the words.
"And that is?" Hiccup replied "A ridiculously fast plane used primarily by a secret organization" topaz finished
